

| | |
|----------------|--|
| Ref. | 06750 |
| Machine | MIG WELDING MACHINE |
| Brand | LINCOLN ELECTRIC |
| Model | COMPACT 350-I |
| | Equipped with: <ul style="list-style-type: none">- Torch- Earth clamp welding |

Main Technical Data

OUTPUT

Duty cycle (10 min. period) 35% - 60%
Welding current 350 – 260 A
Arc voltage 31,5 – 27 V
Open circuit voltage: max. 50 V
Welding current range 50 – 380 A
Welding voltage range 16,5 – 33 V

INPUT

Supply (3 phases, 50 Hz) 220 / 280 V
Supply current at rated output 46 / 27 A
Power factor (cos ϕ) 0,92
Absorbed power 17 KVA

OTHER SPECIFICATIONS

Insulation class 20
Protection class H
Operating voltage 42 V
Wire diameters \varnothing 0,8 – 1,6 mm
Approximate weight 80 kg
Dimensions (L x W x H) 920 x 490 x 790 mm

(Characteristics based according to technical data)
