

<b>Ref</b>	05604
<b>Machine</b>	BED MOUNTED THREADING MACHINE
<b>Brand</b>	SUPER EGO
<b>Model</b>	REX N100A

### Main Technical Data

- Machine for working in the workshop or on site.
- Suitable for plumbing and heating installations.
- Easy handling
- Applications of cutting, reaming and threading in very short time.

BSPT right-handed threads  $\text{Ø } \frac{1}{4}'' - 4''$

NPT threads  $\text{Ø } \frac{1}{4}'' - 4''$

Metric threading  $\text{Ø } 8 - 52 \text{ mm}$

PG threads by electrical use PG7 – PG48

Motor power 1.850 W

Dual voltage 115 V / 230 V – 50 Hz

3 synchronized turn speeds 15, 27 and 48 rpm

Torque automatic adjustment

Automatic die by copy system  $2 \frac{1}{2}'' - 4''$

Dimensions (L x W x H) 873 x 635 x 558 mm

#### Other specifications:

- Switch and buttons protected with safety on-off
- Carriage with handwheel fast and soft
- Automatic and adjustable greasing
- Mechanical oil pump (gears)
- Tube fixation by means
- Pipe fixation by rear centering plate and self-locking claws.
- Pipe cutter with automatic centering and quick adjustment
- Reamer of carbo steel

(Characteristics based according to technical data)
