

Ref	07071
Machine	CNC CUTTING CENTRE ELECTRONEUMATIC
Brand	MACO
Model	VK-370-AR
	EQUIPPED WITH:
	- FAGOR CNC
	-For metal profiles cutting, straight cut or degrees to both sides

Main Technical Data

- Cutting wheel diameter Ø 370 mmd
- Cutting wheel rotation 20 – 120 rpm
- Advance stroke 1.500 mm
- Cutting capacity to 90°:
 - Round min 10 mm / max 125 x 125 mm
 - Square min 10 mm / max 110 x 110 mm
 - Rectangular 100 x 150 mm
- Cutting table height 900 mm
- Total power installed 8 kW
- Control voltage 24 V
- Ambient conditions 16° C
- Dimensions (L x W x H) 4.060 x 1.200 x 1.950 mm
- Weight 1.300 kg

OTHER SPECIFICATIONS:

- Cutting group by means circular sawing with vertical lowering from up.
- Sliding on prismatic guides adjustable.
- Possibility of head rotation for angle cuts to 60° to the right and left.
- In the control programme can intro: length, angles, pieces number, coupling length, error diagnosis, and so on...

(Characteristics based according to technical data)
